THE

AMERICAN

JOURNAL OF PHARMACY,

PUBLISHED BY AUTHORITY OF THE

PHILADELPHIA COLLEGE OF PHARMACY.

EDITED BY

JOSEPH CARSON, M. D.
Professor of Materia Medica in the Philadelphia College of Pharmacy,

ASSISTED BY A PUBLISHING COMMITTEE,

CONSISTING OF CHARLES ELLIS, WM. PROCTER, JR., A. DUHAMEL,
AMBROSE SMITH, THOMAS P. JAMES, AND

ROBERT BRIDGES, M. D.
Professor of Chemistry in the Philadelphia College of Pharmacy.

NEW SERIES, VOL. XI.

N.Y. ACADEMY OF MEDICINE LIBRARY
8416

Philadelphia:
Merrihew & Thompson, Printers,
No. 7 Carter's Alley.

1846.

PUBLISHING COMMITTEE.

CHARLES ELLIS,
A. DUHAMEL,
THOMAS P. JAMES,
WILLIAM PROCTER, JR.
AMBROSE SMITH,
ROBERT BRIDGES, M. D.

CONTENTS.

No. I.

On Marrubium Vulgare. By Joseph Allen M'Maken, - 1
Note on Valerianate of Zinc. By William Procter, Jr. - - 2
Report of the New York College of Pharmacy, - - - 4
On the Conversion of Benzoic into Hippuric Acid. By James C. Booth and Martin H. Boyè, M. D. - - - - - 6
On the Action of Lead in Distilled and River Water. By Richard Phillips, Jun., - - - - - - - - - 16
On the Liquefaction of Gases. By Professor Faraday, - - 19
Examination of Jalap Resin. By G. A. Kaiser, - - - - 23
On Limone. By Dr. C. Schmidt, - - - - - - 32
On the Organic Acids of Lactuca Virosa and Sativa. By M. Köhnke, - - - - - - - - - - 34
Analysis of Ergot. By M. Segrip, - - - - - - - 39
On the Condensation of Nitrogen by Vegetable Mould, and on the Nutritive Power of the Soil. By Professor Mulder, - 40
On the Jamaica Dogwood, - - - - - - - - 46
New Preparation of Cinchona Bark, - - - - - - 49
On the Mode of Preserving Colchicum Cormi. By Joseph Houlton, M. D. - - - - - - - - - - 52
An account of the Artificial Formation of a Vegeto-Alkali. By George Fownes, Esq. - - - - - - - - 54
Acetate of Iron as a Remedy for Arsenical Preparations, - - 55
On the Adulteration of Cochineal. By M. Letellier, of Rouen, - 57
Observations on Asparagine. By M. Piria, - - - - - 65
Valerianate of Quinine—its Therapeutic Employment—mode of Preparation and Administration, - - - - - - - 68
Minutes of the College of Pharmacy, - - - - - - - 73
Miscellany, - - - - - - - - - - 75

No. II.

Notice of some Brazilian Drugs. By J. Carson, M. D. - - 81
Observations on Monardin, a peculiar Crystalline substance, derived from the Volatile Oil of Monarda Punctata. By William Proctor, Jr. - - - - - - - - - 86
Note on tests for lead. By Ambrose Smith, - - - - 90
Note on Sesquinitrate of Iron. By Augustine Duhamel, - - 92
Note on Adulterated Opium. By C. Ellis, - - - - 94
Essay on the Purple Foxglove (Digitalis Purpurea.) By M. Homolle, - - - - - - - - - - 97
Physiological and Therapeutical action of the bitter principle of Digitalis, - - - - - - - - - - 104
Experiments on the formation of Lactic Acid from Sugar-Cane. By Prof. H. Von Blucher, - - - - - - - 106
Method of ascertaining the quality of Soaps, - - - - 109
On the manufacture of Borax. By M. Köhnke, - - - 111
On a new test for Bile and Sugar. By Dr. M. Pettenkofer, - 114
On Pettenkofer's new test for Bile. By Dr. W. J. Griffith, - 117
Acetate of Iron as a remedy for Arsenical preparations, - - 118
On officinal Sulphur Præcipitatum. By Dr. Otto, of Brunswick, - 120
On the Liquefaction and Solidification of Gaseous Bodies. A Lecture delivered at the Royal Institution, by Professor Faraday, - - - - - - - - - - 121
On the preparation of Citric and Tartaric acids. By the editor of "the Dublin Hospital Gazette," - - - - - - 124
Report on the Memoirs of MM. Simon and Hardy relative to the culture and products of the Papaver Somniferum in the climate of Algiers. By MM. De Mirbel, Boussingault, and Payen (Reporter,) - - - - - - - - 126
On the Heavy Calcined Magnesia. By. M. J. Dalpias, - - 131
On the Chemical composition of Guano. Extract of a letter from M. E. Marchand, of Fécamp, to M. Boullay, - - - 135
Adulteration of Iodide of Potassium with Carbonate of Potassa. Extract of a letter from M. Destouches to M. Boudet, - - 136
Chemical phenomena of Digestion. By Messrs. Bernard and Barriswill, - - - - - - - - - - 138
On the preparation of Phosphate of Soda. By the editor of "the Dublin Hospital Gazette, - - - - - - - - 145
On Ceylon Moss. By M. Schacht, of Berlin, - - - - 146
Proceedings of the New York College of Pharmacy, - - - 148
Miscellany, - - - - - - - - - - - 153

No. III.

On Syrup of Wild Cherry Bark, and on the power of hydrocyanic acid in preventing formentation. By Daniel S. Jones, 161
Extract from the minutes of the Board of Trustees of the College of Pharmacy of the City of New York, July 3d, 1845, - - 164
Elementary Chemistry, Theoretical and Practical. By George Fownes, Ph. C. With numerous Illustrations. Edited by Robert Bridges, M. D., - - - - - - - - 166
The Dispensatory of the United States of America. By George B. Wood, M. D., and Franklin Bache, M. D., - - - 170
Observatisns on Myrrh. By C. H. Ruickoldt, - - - - 171
On the Preparation of Pure Phosphoric Acid. By Dr. Gregory, 178
On a Method of Purifying Arseniferous Sulphuric Acid during its manufacture. By M. Alph. Dupasquier, - - - - 180
On Digitalic Acid and the Digitalates. By M. Pyrame Morin, - 181
On Sulphurous Æther. By MM. Eblemen and Bouquet, - - 185
On the Root of Cohate, a new diuretic Medicine. By M. Arnozan, - - - - - - - - - - - - 186
Berzelius on the Urine, - - - - - - - - - 188
On Carrageen Moss. By M. E. Mouchon, - - - - 189
Examination of the views adopted by Liebig on the Nutrition of Plants. By Dr. Seller, - - - - - - - - 192
Experiments on the Preparation, Properties and Composition of Valerianic Acid and some of its salts. By Dr. C. G. Wittstein, - - - - - - - - - - - - 194
On a new method of preparing Chlorate of Soda and Chlorate of Barytes. By Dr. C. G. Wittstein, - - - - - - 200
On Aqua Regia; on Hyposulphuric Acid as a means of oxidation; on the Constitution of the same acid, and the part it acts on being put in contact with organic substances. By Dr. Kœne, Professor of Chemistry, at Brussels, - - - 201
Note on Santonin or Santonic Acid. By H. Gaultier De Claubry, - - - - - - - - - - - - 211
Resinéone of Tar a therapeutical agent. By Dr. Péraire, - - 212
Natural History—Extract of a work upon Singapore, addressed to M. De Lagrener, Minister Plenipotentiary, residing in China, by Dr. Yvan, Physician of the Legation, and Professor in the Secondary School of Medicine, Marseilles, - - 215
Explosion produced by the combustion of Potassium, - - 221
On a new kind of Adulteration of the Muriatic Acid of Commerce. By Dr. A. Vogel, Jun., - - - - - - - - 222

On a molecular Modification of Oil of Turpentine, rendering it capable of more readily dissolving Caoutchouc. By M. Bouchardat, - - - - - - - - - - 224
On the true Composition of Labaraque's solution of Chloride of Soda. By B. Cavanagh, Esq., - - - - - - - 226
On the Conversion of the Essential Oil of Mustard into the essential Oil of Garlic. By Charles Gerhardt, - - - - 228
Patent granted to Alfred Vincent Newton, London, for improvements in the manufacture of Cyanogen and its compounds, particularly the Prussiates of Potash and Soda, - - - 231
MISCELLANY, - - - - - - - - - - - 236

No. IV.

Observations on Acetate of Zinc. By William Procter, Jr., - 241
An address delivered to the Graduates of the New York College of Pharmacy, Nov. 20th, 1845. By George D. Coggeshall, Esq., Vice President of the College, - - - - 244
Remarks on the preparation of Seneka. By William Procter, Jr., - 247
Process for preparing Valerianic Acid. By Messrs. T. and H. Smith, - - - - - - - - - - - 252
On the transformation of Perchloride of Mercury into Protochloride, by certain Pharmaceutical preparations. Compound preparations of Mercury not incompatible with these preparations. By M. Lepage, - - - - - - - 255
On Aqua Regia; on Hyponitric Acid, as a means of oxidation; on the Constitution of the same acid, and the part it acts on being put in contact with organic substances. By Dr. Kœne, Professor of Chemistry at Brussels, - - - - 257
On the power of dissolving Oxygen, possessed by Litharge in a state of fusion, and on several peculiarities which accompany the production of Litharge by Cupellation on a large scale. By M. F. Leblanc, - - - - - - - 270
Manna. By A. Leuchtweiss, - - - - - - - - 276
A new caustic formed by the mixture of Safron with sulphuric acid. By M. Velpeau, - - - - - - - - 277
Mode of preparing epispastic paper. By Wislin, - - - 279
Contributions towards the Chemical History of the Gratiola. By M. Eugene Marchand, of Fecamp, - - - - - - 281
On a remarkable change which morphine undergoes by the action of sulphuric acid. By A. E. Arppe, - - - - - - 286
Observations on the theory of M. Peligot and M. Baudrimont respecting the manufacture of Sulphuric acid. By Dr. Kœne - 289
Observations on Hyposulphite of Soda, or Sulphite-sulphuret of Soda. By E. Mouchon, - - - - - - - - 292
A new process in Eudiometry for calculating the volume of the elements of Atmospheric Air in relation to each other. By M. Lassaigne, - - - - - - - - - - 294
On the action of Alkaline Bicarbonate of vegetable bases in the presence of Tartaric acid. By C. Oppermann, - - - - 297
Chemical remarks on Cascarilla. By A. Duval, - - - 300
Note upon the preparation of Iron reduced by Hydrogen. By MM. E. Soubeiran and Dublanc, - - - - - - 303
Minutes of the Pharmaceutical Meetings, - - - - - 306
Miscellany, - - - - - - - - - - - 313

INDEX I.

AUTHORS OF ARTICLES IN THE ELEVENTH VOLUME OF THE AMERICAN JOURNAL OF PHARMACY.

Arnozan, M. On the root of cohate, a new diuretic medicine, 186

Arppe, A. E. On a remarkable change which morphine undergoes by the action of sulphuric acid, - - 286

Bernard and Barriswill. On the chemical phenomena of digestion, 138

Berzelius. On the urine, - - - - - - - - - 188

Bouchardat. On a molecular modification of oil of turpentine, rendering it capable of more readily dissolving caoutchouc, - - - - - - - - - 224

Blucher, Prof. H. Von. Experiments on the formation of lactic acid from sugar cane, - - - - 106

Booth, James C., and Martin H. Boyé. On the conversion of benzoic acid into hippuric, - - - - 6

Carson, J. Notice of some Brazilian drugs, - - - - - 82

Coggeshall, George, D. Address to graduates of the College of Pharmacy of New York, - 244

Dalpias, M. J. On the heavy calcined magnesia, - - - - 131

Destouches, M. On the adulteration of iodide of potassium with carbonate of potassa, - - - - - - 135

Duhamel, A. Note on the sesquinitrate of iron, - - - - 92

Dupasquier, M. Alph. On a method of purifying arseniferous sulphuric acid during its manufacture, - 180

Duval, A. Chemical remarks on cascarilla, - - - - - 300

Ebelmen and Bouquet. On sulphurous ether, - - - - 185

Ellis, Charles. On adulterated opium, - - - - - - 94

Farrady, Prof. On the liquefaction of gases, - - - - 19

" On the liquefaction and solidification of gaseous bodies, - - - - - - - - 121

Fownes, George, Esq. An account of the artificial formation of a vegeto-alkali, - - - - - - 54

Gerhart, Charles. On the conversion of the essential oil of mustard into the essential oil of garlic, - - 228

Gregory, Dr. On the preparation of pure phosphoric acid, - 178

Griffith, Dr. W. J. On Pettenkoffer's new test for bile, - - 117

Homolle, M. Essay on the purple foxglove. (digitalis purpurea) 97

Houlton, Joseph, M. D. On the mode of preserving colchicum cormi, - - - - - - - - 52

Jones, Daniel S. On syrup of wild cherry bark, and on the power of hydrocyanic acid in preventing fermentation, - 162

Kavanagh, B. On the true composition of Labaraque's solution of chloride of soda, - - - - - - 226

Karser, G. A. Examination of jalap resin, - - - - - 23

Koene, Dr. Observations on the theory of M. Peligot and M. Baudrimont respecting the manufacture of sulphuric acid, - - - - - - - - - 289

" On aqua regia; on hyposulphuric acid as a means of oxidation; on the constitution of the same acid, and the part it acts on being put in contact with organic substances, - - - - - 201, 257

Kohnke M. On the organic acids of lactuca virosa and sativa, - 34

" On the manufacture of borax, - - - - - 111

Leblanc, M. F. On the power of dissolving oxygen possessed by litharge in a state of fusion, and on several peculiarities which accompany the introduction of litharge by cupellation on a large scale, - 290

Lepage, M. On the transformation of perchloride of mercury into protochloride by certain pharmaceutical preparations. Compound preparations of mercury not incompatible with these preparations, - 255

Letellier, M. On the adulteration of cochineal, - - - - 57

Leuchtweiss, A. On Manna, - - - - - - - - - 276

Lassaigne, M. A new process in eudiometry for calculating the volume of the elements of atmospheric air in relation to each other, - - - - - 294

Marchand, M. Eugene, of Fecamp. Contributions towards the chemical history of the gratiola, - 281

" On the chemical composition of guano, - - 135

Merg, M. On a new method of detecting the adulteration of essential oils, - - - - - - - - - 236
M'Maken, Joseph. On marrubium vulgare, - - - - - 1
Mirbel, MM. De, Boussingault and Payen. Report on the memoirs of MM. Simon and Hardy relative to the culture and products of the papaver somniferum in the climate of Algiers, - - - - - 126
Morin, M. Pyrame. On digitalic acid and the digitalates, - 181
Morson, T. N. R. On a new variety of opium, - - - - 94
Mouzhon, M. E. On carrageen moss, - - - - - - 189
" Observations on hyposulphite of soda or sulphite sulphuret, - - - - - - 292
Mulder, Prof. On the condensation of nitrogen by vegetable mould and the nutritive power of the soil, - 40

Otto, Dr. On officinal sulphur præcipitatum, - - - - 120
Oppermann C. On the action of alkaline bicarbonates on vegetable bases in the presence of tartaric acid, - 297

Peraire, Dr. On resinone of tar, - - - - - - - - 212
Pettenkofer, Dr. M. On a new test for bile and sugar, - - 114
Phillips, Richard. On the action of lead in distilled and river water, - - - - - - - - 16
Piria, M. Observations on asparagine, - - - - - - 65
Procter, William. Note on valerianate of zinc, - - - - 2
" Observations on monardin, a peculiar crystalline substance, derived from the volatile oil of monarda punctata, - - - 86
" Observations on acetate of zinc, - - 241
" Remarks on the preparations of senega, - 247

Ruickoldt, C. H. Observations on myrrh, - - - - - 171

Schacht, M. On Ceylon moss, - - - - - - - -
Schmidt, Dr. C. On limone, - - - - - - - - - 32
Seller, Dr. Examination of the views adopted by Liebig on the nutrition of plants, - - - - - - - - 192
Smith, Ambrose. On tests for lead. - - - - - - 90
" *T. and H.* Process for preparing valerianic acid, - 252
Segrip, M. Analysis of ergot, - - - - - - - - 39

Velpeau, M. A new caustic, formed by the mixture of saffron with sulphuric acid, - - - - - - 277

Vogel Dr. A. On a new kind of adulteration of the muriatic acid of commerce, - - - - - - - - 222

Wislin. Mode of preparing epispastic paper, - - - - 279

Wittstein, Dr. C. G. Experiments on the preparation, properties and composition of valerianic acid and some of its salts, - - - - - 149

INDEX II.

SUBJECTS OF ARTICLES IN THE ELEVENTH VOLUME OF THE AMERICAN JOURNAL OF PHARMACY.

Acetate of iron as a remedy for arsenical preparations, . . 55
" zinc, ... 241
Acid, digitalic 181
" nitric, purification of 156
" preparation of pure phosphoric acid 178
" quinic, means of detecting 156
" strychnic 237
" sulphuric, manufacture of 289
" " on morphine, ... 286
" valerianic 194, 252
Action of lead in distilled and river water, ... 16
Address before College of Pharmacy, New York, . . . 244
Adulteration of cochineal, ... 57
" essential oils, ... 236
Adulterated opium, ... 94
Adulteration of iodide of potassium with carbonate of potassa, . 136
" sulphate of quinine, ... 155
" iodide of potassium, ... 339
Alkaline bicarbonates on vegetable bases in presence of tartaric acid, 297
Almond, bitter water of, reagents to distinguish between it and cherry laurel water, ... 79
Alum, phosphorus from 77
Amber, examination of oil of 313
Analysis of ergot, ... 39
Angico gum 81
Aqua regia, ... 201,257
Aqua sinapis, ... 80
Aqueous infusion of galls as a test, ... 80
Arsenic, poisoning by 238
Arseniate of quinine, ... 158
Arseniferous sulphuric acid, ... 180
Arsenical preparations, acetate of iron an antidote for . . 65
Artificial formation of a vegeto-alkali, ... 54
Asparagine, on 65
Atmosphere, eudiometry of 294

Bark, new preparation of cinchona 49
" Brazilian 84

Bark of the Paú Pereira, ... 86
Barytes, chlorate of 200
Benzoic acid, conversion into hippuric acid of 6
Benzoline, ... 239
Bichloride of hydrogen, ... 76
Bile and sugar, test for 114,117
Bleaching principle, new 158
Blood, human 240
Boiling point of water, variations of 75
Borax, manufacture of 111
Brazilian drugs, notice of 81
" bark, ... 84

Calcined magnesia, heavy 131
Cantharides, note upon 79
Carbonate of potassa, preparation of pure 80
Carrageen moss, ... 189
Castor oil seeds as a purgative, ... 77
Cascarilla, chemical remarks on 300
Caustic potassa and soda, ... 76
" new 277
Cement for stoneware, &c., ... 76
Ceylon moss, ... 141
Chemical phenomena of digestion, ... 138
Chemistry, elementary, theoretical and practical, by Gorge Fownes, Ph. D., &c., ... 166
Cherry laurel water, reagents to distinguish between it and water of bitter almonds, ... 79
Chloranil, ... 157
Chlorate of soda and of baryta, ... 200
Chloride of soda, ... 226
Chloride, per of mercury and proto 255
Chlorine water, ... 238
Cinchona bark, new preparation of 49
Citric and tartaric acids, ... 124
Cochineal, adulteration of 57
Cohate root of, a new diuretic medicine, ... 186
Colchicum cormi, mode of preserving 52
College of Pharmacy, report of the New York 4
" " minutes of the 164
" " proceedings of the 148
" " address before 242
Composition of protocarbonate of iron, ... 76
" guano, ... 135

Creosote, ... 154
Cyanogen and its compounds, ... 231

Dentrifice of M. Mialhe, ... 77
Digestion, chemical phenomena of 136
Digitalic acid and digitalates, ... 181
Digitalis purpurea, ... 97
" bitter principle of 104
Dispensatory of U. S., ... 170
Distilled waters of the pharmacopœia 159
Dogwood, Jamaica 46
Drugs, Brazilian, notice of 81
Dryobalanops camphora, ... 219

Epispastic paper, ... 299
Ergot, analysis of 39
Essential oil of mustard, ... 228
" oils, method of detecting the adulteration of . 236
" oils, testing, by means of sulphuric acid, . . 238
Ether, sulphurous 185
Eudiometry, new process in 294
Euphorbia esula and E. cyparissias, ... 153
Explosion produced by the combustion of potassium, . . 221

Fedegoso root, ... 82
Fruits, starch in 237

Galls, aqueous infusion of, as a test, ... 80
Gambir, ... 215
Gases, on the liquefaction of, ... 19
Gaseous bodies, on the liquefaction and solidification of . . 121
Glass, green, of commerce, ... 158
Gratiola, contributions towards the chemical history of . . 231
Guano, on the chemical composition of 135
Guarahem, ... 84
Guarana, ... 83

Hair, ointment for the growth of the 160
Heavy calcined magnesia, ... 131
Herva tostao, ... 82
Hippuric acid, conversion of benzoic acid into . . . 6
Hydrocyanic acid, power of, in preventing fermentation, . . 161
Hydrogen, bichloride 76
Hyposulphuric acid, ... 201
Hyposulphate of soda, ... 292

Iodide of potassium, adulteration of 237
Iron, acetate of, an antidote for arsenical preparations, . . 55
" protocarbonate of 76
" sesquinitrate of 92
" vessels, ... 239

Jalap resin, examination of 23
Jamaica dogwood, ... 46

Labaraque's solution, ... 225
Lactic acid from sugar cane, ... 106
Lactuca virosa and sativa, organic acids of, . . . 34
Lactucarium, ... 240
Lead, on the action of, in distilled and river water, . . 16
" tests for 90
Limone, on 32
Linseed oil, purification of 78
Liquefaction of gases, ... 121
Litharge, power of dissolving oxygen possessed by . . 270

Magnesia, heavy calcined 131
Manufacture of borax, ... 111
Manna, ... 276
Marrubium vulgare, ... 1
Mercurial ointment, preparation of 80
Mercury, perchloride and protochloride of 255
Minutes of the College of Pharmacy, ... 73
Monardin, observations on the peculiar principle derived from the volatile oil of monarda punctata, ... 86
Morphine, sulphuric acid on 286
Moss, Ceylon 145
Musk, in convulsions, ... 159
Mustard, essential oil of, conversion into essential oil of garlic, . 228
Myrrh, observations on, ... 171
" mode of ascertaining the purity of . . . 239

Naptha, purification of 78
Natural history, ... 215
Nauclea gambir, ... 215
New York College of Pharmacy, ... 148
New preparation of cinchona bark, ... 49
Nitrate, sesqui, of iron, ... 92
Nitric acid, purification of 156
Nitrogen, condensation of, by vegetable mould, . . . 40

Nitrogen, preparation of pure 80
Nutrition of plants, ... 192
Nutritive power of the soil, ... 40

Observations on asparagine, ... 65
" monardin, ... 86
" creosote, ... 154
" myrrh, ... 171
Officinal sulphur præcipitatum, ... 120
Oil of turpentine, on a molecular modification of 224
Ointment, preparation of mercurial 80
Opium, adulterated 94
" new variety of 94
" specimen of 164
Organic acids of lactuca virosa and sativa, ... 34
Oxygen new method of preparing 74

Papaver somniferum, report on 126
Paper, epispastic 279
Patent granted to Robert Oxland for improvements in the manufacture of chlorine, ... 313
Phosphate of soda, ... 145
Phosphoric acid, preparation of 178
Plants, nutrition of 192
Poisoning, detection of prussic acid in cases of 77
" by arsenic, ... 238
Potassa and soda, preparation of pure caustic 77
" preparation of pure carbonate of 80
Potassium, explosion produced by the combustion of . . 221
Preparation of phosphate of soda, ... 145
Proceedings of the New York College of Pharmacy, . . . 148
Preparations of senega, ... 247
Preserving colchicum cormi, ... 52
Protocarbonate of iron, ... 76
Prussic acid, detection of, in cases of poisoning, ... 77
Purification of naptha, ... 78
" linseed oil, ... 78
" nitric acid, ... 156
Purgative, castor oil seeds as a 77
Purple foxglove, ... 97
Pyrophorus from alum, ... 77

Quinic acid, means of detecting 156

Quinia, valerianate of 68
" arseniate of 158

Report of the New York College of Pharmacy, ... 4
Report on the memoirs of MM. Simon and Hardy relative to the culture and products of the papaver somniferum in the climate of Algiers, ... 126
Review, ... 166
Resin jalap, ... 23
Resineone of tar, ... 213

Saliva, ... 240
Senega, preparations of 247
Sesquinitrate of iron, ... 92
Soaps, method of ascertaining the quality of 109
Soda, phosphate of 145
" chlorate of 200
" hyposulphite of 292
" sulphite sulphuret, ... 272
Solidification of gaseous bodies, ... 121
Starch in fruits, ... 237
Strychnic acid, preparation of 237
Sugar cane, lactic acid from 106
Sugar, test for 114
Sulphur præcipitatum, ... 120
Sulphuric acid, method of purifying arseniferous, ... 180
" testing essential oils by means of 338
" action of, on morphine, ... 286
" manufacture of 289
Sulphurous ether, ... 185
Syrup of wild cherry bark, ... 162

Tar, resineone of 212
Tartaric acids, preparation of, and of citric, ... 124
" action of alkaline bicarbonate on vegetable bases in the presence of 297
Tests for lead, ... 90
Test for bile and sugar, ... 114,117

Urine, Berzelius on the 188

Valerianate of zinc 2
Valerianate of quinine, ... 68
Valerianic acid, ... 194
" process for preparing 252
Variations of the boiling point of water, ... 74

Vegetable mould, condensation of nitrogen by, and on the nutritive power of the soil, ... 40
Vegeto alkali, on the artificial formation of a 54
Veratrine, ... 154

Water, chlorine 238
Water, variations of the boiling point of 74
Waters, distilled, of the pharmacopœia, ... 159

Zinc, note on valerianate of 2
" acetate of 142
